

Pesticide Application Registry Notice

Dear Parents, Guardians, and Staff:

West Prairie Community Unit School District #103 practices Integrated Pest Management, a program that combines preventative techniques, non-chemical pest control methods and the appropriate use of pesticides with a preference for products that are the least harmful to human health and the environment. The term "pesticide" includes insecticides, herbicides, rodenticides and fungicides.

The school district is establishing a registry of people who wish to be notified prior to pesticide applications. To be included in the registry, please complete the form below and submit it to the Principal's Office.

I would like to be notified two days before the use of pesticides at the school. I understand that if there is an immediate threat to health or property that requires treatment before notification can be sent out, I will receive notification as soon as practicable.
